When It Comes To Colon Care We Have The Best Holistic Approach

Intestinal Cleansing and Detoxification with Kiva Process

JoAnne Greylen Asher, Director

Colonic Irrigation at its finest; disposable accessories, triple-filtered hyperactive oxygenated water; Kiva process, a new method that biologically cleans for greater detoxification and purified through ultraviolet sterilization.

Intestinal cleansing may eliminate years of accumulated toxic wastes and stop the unnecessary recycling of poisons that build up in the large intestine. Diluting toxic load may reduce stress on the liver, allowing greater functioning of the eliminating organs. The quality of water used is particularly important in this process.

It is Kiva processed to become soft and carries balanced electrolytes in conjunction with negative ions. The PH is balanced into a more natural state.

Clean – Safe – Painless

- Nutritional Counseling
- Candida Diet
- Parasite Cleansing
- Ear Candling
- Oxygenated Steam Sauna
- Cellulite Reduction
- Lymphatic Drainage
- State of the Art Hyperactive
- Gluten Intolerance

The use of a sauna should be part of any detoxification program. The sauna increases the eliminative, detoxifying and cleansing capacity of the skin by stimu-

lation of the sweat glands and also promotes healthy skin tone and texture due to increased blood circulation.

- Relaxes and Loosens Muscles, and Oxidizes Toxins
- Stimulates Vasodilatation of Peripheral Blood Vessels

Rachel Mann is a Certified Colon Hydro-Therapist from The American Colon Therapy Association (A.C.T.A.). She has been treating individuals with colon cleansing for over 12 years. She comes with a wealth of experience as well as a clear understanding of all of her clients' needs so that they can experience a gentle and complete cleansing process.

Colon Irrigation is a very safe procedure. We use only filtered water and disposable materials, in a very clean environment. Colon cleansing removes debris from the system and alleviates

constipation, acne, rashes, allergies, worms and parasites, so a sense of well-being can be achieved. Weight loss is also accomplished with the removal of old waste from the colon. We also work with herbs: Wheat Grass, Acidophilis, Oxygen, garlic and Aloe Vera. We also work with candida-yeast infections, nail fungus, gas, bloating, skin problems and depression.

The most modern cleansing equipment for sterilization (Digital Auto Claves) and special cleansing solutions are used to completely sterilize all areas. We also provide disposable instruments.

THERAPY**

When the colon is clean and healthy, we experience a feeling of well-being. When it is congested with stagnant waste, poisons back up into the system and pollute the inner environment. This is called auto-intoxication - literally, "self-poisoning."

Auto-intoxication may be a causative factor in numerous serious diseases. This pollution of blood interrupts waste removal at a cellular level.

According to some estimates, about 70 million people in America suffer from some kind of bowel problem: colitis, ileitis, diverticulitis, constipation, and 100,000 each year have a colostomy. Many people who aren't even aware they have a bowel problem are often in the worst condition of all.

When you are not eliminating properly, deposits of waste matter build up along the wall and in the pockets of the colon. This is why even a mild case of constipation is a very serious problem. When you are not eliminating properly, wastes may not leave for days. Material deposits along the colon wall may not leave for months or even years. Incredible as it may sound, these deposits of hardened fecal matter may get to be two or three inches thick and as hard as tire rubber.

These deposits are harmful. They make it difficult for the body to absorb minerals and nutrients through the intestinal walls.

Bowel problems cause nutritional deficiency no mat-

ter how good your diet or how many vitamins you take. The nerve endings in the colon get irritated and can lead to a spastic or inflamed colon.

Many colons today are pinched, prolapsed and over-irritated. Over-the-counter laxatives over-stimulate the tissues of your bowel, weakening the colon even further. And they still don't remove the hardened deposits. The same is true for ordinary enemas which merely wash out the fresh wastes.

By cleansing the colon of impacted and putrefactive fecal matter, colonics may offer relief from a variety of disturbances. Fatigue, gas, headaches, irritability, skin problems, cold hands and feet, and depression are among the symptoms people have found relieved by colon cleansing. Constipation is another. With colonic irrigation, your sense of well-being is often dramatically improved. You feel lighter, more energetic. The body can again take nourishment from food and defend itself against disease.

Holistic Dentistry

since 1971

**Stephen R. Goldberg,
DDS, FAGD, CCN**

I have practiced nutritional, preventive routine dentistry for over 30 years. My main goal is to save my patients' teeth for the rest of their lives in a relaxed atmosphere.

There have always been alternative, non-toxic dental materials instead of those containing mercury, nickel and aluminum. The safe protocol for necessary dental mercury removal is strictly followed.

To prevent the development of loose teeth or orthodontic relapses, I treat noxious oral habits like tooth clenching, tongue-thrusting or night grinding of teeth, which may cause headaches (TM Joint

Syndrome). All local and systemic causes of dental diseases are investigated carefully and non-surgical, non-drug treatments are planned.

CENTER FOR UNLIMITED VISION

DR. JOSEPH SHAPIRO

20/20 Sight is not perfect. Eyeglasses and sight-improvement techniques (i.e., Bates) are not always the answer. Vision is a total body process. A sophisticated visual analysis requires 21 different tests to determine your unique visual pattern.

Most eye exams lead only to a prescription for glasses which reinforces visual weakness and may not uncover more fundamental visual problems, which may result in the following symptoms: eyestrain, fatigue, discomfort with your glasses or contact lenses, oversensitivity to light, short attention span, inability to concentrate, general nervousness and tension, headaches, blurry or double vision, poor reading skills, and academic underachievement, coordination difficulties, the need to rub your eyes, and permanent squint or frown.

I will analyze your vision and prescribe special lenses and/or daily eye exercise to rid you of your symptoms and make your everyday life more comfortable. In addition,

I am the only optometrist in Manhattan who practices Photoretinology, i.e., the branch of ocular science that uses varying light frequency therapy.

Due to Dr. Shapiro's perspective and pioneering efforts in the field of vision therapy, he is well-received in both holistic and traditional medical circles. He practiced in one of the first holistic centers in New York City, Served as a staff member of the Chiefs of Ophthalmology of Manhattan Eye and Ear Lenox Hill Hospitals, and served as a staff member and clinical supervisor at the New York Light House Low Vision Service. He has done grand rounds, workshops and lectures at 6 major metropolitan hospitals on the subject of functional vision testing and therapy. *Call for information.*

From Central America, Reverend Elka Boren has been gifted since childhood with healing abilities, clairvoyance and a sensitivity that helps her see into the body on many levels. Elka has been trained by shamans to reach a high level of skill and has integrated advanced methods of subtle geometric energy grids to accelerate healing processes and remove blocks from the subtle and physical bodies. Elka's powerful technique moves people through life's phases, removing blocks at their root, shifting clients to higher energy frequencies and bringing

forward greater clarity, understanding and movement.

Elka is also a teacher and practitioner of the Rising Star Healing System, which she was initiated into by master healer Derek O'Neill.

"The body's like a computer that holds tremendous amounts of data. Once it starts deleting unnecessary information in the form of blockages within your body and mind, you feel healthier and lighter – physically, mentally and emotionally. This technique releases cellular memories, often the cause of physical illness and emotional traumas."

PSYCHOLOGY & THERAPY

Psychotherapy with Spirit

Feeling overwhelmed?
 Having trouble with work? With relationships? With loss? Or perhaps you simply feel unable to get what you need. When you are in a struggle with yourself, it can blur everything else. Your life may seem painful, lonely and scary.
Don't be alone with your problems.
 Talking with an insightful, spiritually-attuned psychotherapist can help. Together we can explore, understand, and work with what has been troubling you. Gaining perspective this way can give you a stronger sense of yourself personally, and out in the world. And it can help you discover your own unique evolutionary path.

I am a holistic psychotherapist who has been practicing for over 20 years. My institute training left me well versed in many therapeutic modalities. I have also studied the Tao, Buddhism and various forms of healing. But most important is that I am an experienced listener who is attuned to both psychodynamics and spirituality.
 Successful psychotherapy begins with a trusting relationship. The initial consultation is free. Please feel welcome to call.

Alicia is a Reiki Master, Developmentalist and Educator. She has Masters from Columbia University in Psychology and from Bank Street College in Education. Alicia works with Spiritual Guides, Reiki Energy, Crystals and Drums.

Alicia's Practice: Combines the effectiveness of Psychotherapy Counseling with the Power of Spiritual Healing Energy.

Psychotherapy Counseling enables the client to bring unconscious thought patterns and behaviors to the conscious level, in the form of energy. Energies that were stored in the body during early childhood experiences and traumas i.e., sexual abuse.

Spiritual Healing Energy clears these energies off the body, replacing them with powerful beliefs and behaviors, that enables a person to be happy.

Alicia focuses on healing and balancing all Chakras; the Spiritual, Psychological, Emotional & Physical energy bodies of life.

- First Alicia will diagnose each Chakra.
- Give you clear information on your thought patterns, behaviors and beliefs, which are causing you unhappiness.
- Open, clear and balance your Chakras.
- Finally, Alicia will give you guidance and information on how to stay healthy.

Alicia works with abusers, victims of abuse, couples, adults and children.

RON PANVINI, PH.D.
Certified Bioenergetic Therapist

Just as the story of the wind is written in the sand, our life stories, our fears, disappointments, and longings are written in the structure of our bodies. To move beyond the limits of our history, we must change in mind and body. When we do so, we alter the course of our lives-our fate-and create the chance for embodying new possibilities.

If you are seeking freedom from the limits of inhibition or social phobia, relief from anxiety or depression, if you want to improve your ability to communicate and relate to others, or increase your expressiveness for public speaking, singing, acting, or writing, consider this personal, indepth, active approach. Therapy or coach-

ing, private sessions, groups, and workshops are offered.

Dr. Panvini's work in expressive body psychotherapy spans twenty-five years. His broad and varied background includes an extensive performing arts career, acclaim as a body-oriented voice teacher, a Ph.D., in Clinical Psychology, Certification in Bioenergetics, and treatment of substance abusers, and victims of torture as a Psychologist at Bellevue Hospital.
